

QUALITY, ENVIRONMENT AND SAFETY POLICY

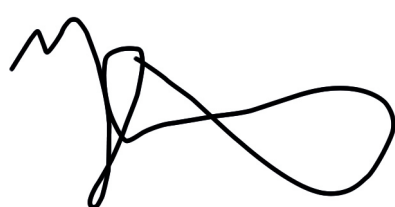

At YPF Group, we generate value for our shareholders, partners, customers, employees, suppliers, and the communities where we operate. We do it through the exploration, development, and production of gas and oil, its industrialization, the marketing of related products and services, and the generation of energy from renewable and non-renewable sources.

The activities we carry out are based on operational excellence, in accordance with our guiding principles:

- Ensuring the safety, health, and welfare of people.
- Protecting the environment and making efficient and sustainable use of resources.
- Ensuring the reliability and integrity of assets and operations.
- Consistently meeting the needs of our customers.

Thus, we are committed to:

- Planning activities in line with this Policy and the Company strategy, with the necessary resources and working conditions to achieve clear and challenging objectives.
- Fulfilling commitments and making decisions considering the requirements of stakeholders.
- Controlling the risks and impacts of our assets, processes, businesses, and projects at all stages of their life cycle.
- Acting with operational discipline, strictly complying with internal regulations and the applicable legal framework.
- Designing, deploying, and implementing processes and regulations to achieve sustained expected results.
- Working with partners and suppliers who adhere to, comply with, and maintain the principles and commitments established in this Policy.
- Continuously improving the efficiency of processes, maximizing value for the Company and stakeholders.
- Promoting the use of new technologies and ongoing innovation aimed at optimizing the profitability and sustainability of our businesses.
